

EuroAnalysis

Geneva 2023

27–31 August 2023
Switzerland

<https://www.euroanalysis2023.ch>

Euroanalysis XXI

The Euroanalysis is the most important analytical conference in Europe, under the auspices of the European Chemical Society (EuChemS) and its Division Analytical Chemistry (DAC), covering all aspects of analytical chemistry. It takes place every 2 years and attracts about 1000 analytical scientists from academia and industry, mainly from Europe.

The Division of Analytical Sciences of the Swiss Chemical Society (SCS-DAS), with the cooperation of DAC-EuChemS, is organizing Euroanalysis XXI in Geneva, Switzerland. You are cordially invited to join us in Geneva between 27 and 31st of August, 2023.

The goal is to stimulate a strong cooperation among persons working in different areas of analytical sciences. Scientists from applied and fundamental research, from industry, education, and regulation are welcome.

Scientific Sessions

The conference will have plenary lectures as well as keynote and contributed oral presentations in four parallel sessions. Topics range from mass spectrometry, aquatic analysis and bioanalysis to diagnostic devices and chemical sensing.

Location and Venue

Euroanalysis XXI will take place at the Centre International de Conférences Genève (<https://cicg.ch>) in Switzerland.

Important Dates

Jan 9, 2023	Opening of Registration
April 30	Deadline of Receipt of Oral and Poster Abstracts
May 31	Acceptance Notification
June 30	Deadline for Early Registration
August 27-31	Euroanalysis Conference
